Dear ~[Title]~[Surname]

Important information about your repeat prescription

In line with good clinical practice we regularly review the medicines we prescribe to ensure that we are adhering to local prescribing guidance. Your doctor has reviewed your emollient [insert name of item] and in line with local guidance from Basildon and Brentwood/Thurrock Clinical Commissioning Group [delete as appropriate] it has been stopped as it is being prescribed for dry skin.

It is not appropriate to prescribe emollients for dry skin as they are available from a wide range of supermarkets and pharmacies at relatively low cost. If you would like to continue using this product please purchase further supplies.

Yours Sincerely

[insert nominated GP]
